

Professional Services Schedule-874: Training Services & Integrated Business Program Support Services

About PMCentersUSA

Founded in 1999, PMCentersUSA is a Small Business offering services in the core disciplines of Project/Program Management, Agile and Business Analysis. We provide the following services to help federal agencies and departments accomplish their missions and train their personnel:

- **Management Consulting:** Our experienced consultants can be engaged to supplement existing teams to manage projects or large programs or reinforce adoption of standards-based practices as they apply to their specific environment and unique needs. PMCentersUSA offers reliable consultants skilled at providing the functional expertise needed to lead a wide range of projects and support your strategic goals.
- **Training Services:** We offer public training as well as customized private training to promote knowledge transfer and foster the development of project/program management competencies. Our training programs are delivered through a variety of learning venues and can be tailored to address specific needs and incorporate interactive course exercises to enable students to practice applying newly-learned theory.
